

## Appendix A Terminals Supported

In general, WordStar may be run on any 48K Z-80, 8080, or 8085 microcomputer system that runs under CP/M, MP/M or one of its derivative operating systems. Here are the terminals to which WordStar is known to be compatible, listed in five groups (terminals supported with standard installation, terminals supported with special installation, terminals available on request, terminals for which special versions of WordStar are available, and terminals currently under evaluation or development).

### STANDARD INSTALLATION

The following terminals are supported through simple responses to the standard installation menus:

ADDS Regent 25	Lear-Siegler ADM-3A
ADDS Regent 45	Lear-Siegler ADM-31
ADDS Regent 60	MicroTerm ACT-IV
Beehive 150	MicroTerm ACT-V
Compucolor II	Perkin-Elmer 550
Cromemco 3100	Processor Tec SOL/VDM
Data General D100/D200	Soroc IQ-120
Flashwriter I	Soroc IQ-140
Flashwriter II	SWTPC CT-82
Hazeltine 1400/10/20	TEC Model 571
Hazeltine 1500/10/20	Televideo 912/920
Heath H-19 (Zenith Z-19)	Televideo 950
Hewlett Packard 2621A/P	TRS-80 Model II with FMG CP/M
IMSAI VIO module	TRS-80 Model II with LIFEBOAT CP/M
IBM 3101	TRS-80 Model II with P&T CP/M
Infoton I-100	Visual 200

**SPECIAL INSTALLATION**

The following terminals are supported through "Patch" sheets (available from your dealer):

DIRECT VP800/B

Lear-Siegler ADM-2

The following terminals, similarly supported, will soon be available:

Beehive DM30

Infoton 400

DataMedia Model 2500

Lear-Siegler ADM-42

DataMedia Model 3025

OMRON 8030B

EECO Model D300/400

Perkin-Elmer OWL-1200

ELBIT DS-1920X

Teleray Model 12

ELBIT DS-4801X

Teleray 3900

**SPECIAL VERSIONS**

Special versions of WordStar are available for the following terminals:

Apple II 80-column

M&amp;R Sup'R'Term (and others)

Videx Videoterm (and others)

Heath H-89 (Zenith Z-89)

with Magnolia CP/M

Heath H-89 (Zenith Z-89)

with Zenith CP/M

Superbrain

with DOS Version 2.0

Superbrain

with DOS Version 3.0

**UNDER CONSIDERATION**

The following terminals are presently under consideration for possible future support:

Ampex Dialogue 80	MicroAngelo VDU
Datamedia DT80/1	Screensplitter VDU
DEC VT132	SSM VB1B Video module
GTC Model 101	SSM VB2 VDU
Hazeltine 1552	SSM VB3 VDU
Hazeltine Series 80	TRS-80 Model III
IS 64 x 16 VDU	Xitec SCT-100 VDU
Ithaca Audio 64 x 16 VDU	

**NOT SUPPORTED**

Wordstar cannot currently be run on the following systems:

PET (Commodore)	SWTP Co.
